

# FAMILY RESOURCE CENTERS EXPANSION

Investing in statewide family support and well-being

I appreciate the ability to call on the Family Resource Center when I, or my family, faces hard times. They are there for us.

—Parent

Thank you for making access to resources and supports easier. I love volunteering at the FRC. I get help and serve others at the same time.

—Parent

## EXPANSION PLANS

Over the next few years, we plan to expand services through our eight Family Resource Centers statewide to enhance supports for families in every community we serve. Communities include:

- Northwest Region**  
Seattle, Kent & Key Peninsula
- North Central Region**  
Greater Wenatchee
- Northeast Region**  
Spokane
- Southeast Region**  
Walla Walla
- Southwest Region**  
Vancouver & Washougal

## WHAT IS A FAMILY RESOURCE CENTER?

A Family Resource Center (FRC) is a single point of entry for families with children to access comprehensive, intensive, integrated, and collaborative community-based services.

FRCs deploy a family-centered multi-generational approach within welcoming spaces where families can receive support, services, resources, and referrals. Each FRC is a place where families can forge partnerships with our team and other community organizations.

FRC services strive to:

- Enhance parenting skills
- Foster the healthy development and well-being of children, youth, and families
- Prevent child abuse
- Increase school readiness
- Connect families to resources
- Develop parent and community leadership
- Promote family economic success

## IMPACT OF FAMILY RESOURCE CENTERS
